

DIVERSITY of JAPANESE TEAs

Reference MATCHA/Powdered HOJI-CHA 1 or 2g for 1 pc. of bagel/muffin/waffle.
MATCHA/Powdered HOJI-CHA 3g per Shake (300cc) (add milk, ice, sugar)

Marshmallow MATCHA/HOJI-CHA Latte

1. Mix 1 teaspoon of MATCHA/HOJI-CHA powder (2g) into 50cc of hot water. Add sugar if desired.
2. Add 150 cc of milk and 2 marshmallows and heat in microwave at 600 watts for 1 minute.
3. Remove from microwave and stir with a spoon.
4. Warm up again at 600 watts for 20 to 30 seconds.
Warning: If you heat in the microwave for 1.5 minutes continuously, the contents of the cup will overflow.
*Please use a heat-resistant cup. Be careful not to burn yourself.

1 teaspoon

HOJI-CHA 1g

Powdered
HOJI-CHA 2g

MATCHA 2g

SENCHA/FUKAMUSHI-CHA
2 to 3g

GENMAI-CHA
2 to 3g

Brewing leaf tea method CHAMART's recommendation

1. Pour boiled water into a tea pot, then pour the water into a tea cup or mug (200 to 250cc) from the tea pot.
2. Use leaf tea (3 to 5g), and pour the water into the tea pot from the cup. Brew the tea for 40 to 60 seconds. Then, pour the tea into the cup.
Try several combinations to find your favorite strength.
You can brew more with the tea leaves as you like.

HOJI-CHAI

1. Pour 150cc of each water & milk and 3g of HOJI-CHA leaf tea into a small pan. Add sugar to taste.
2. Heat the pan over low or medium heat about 3 minutes to boiling.
3. Pour the tea into a cup with a strainer. Adding marshmallows, black pepper, cinnamon or ginger is also good.

HOJI-CHA Espresso Put 1g of powdered HOJI-CHA into an espresso cup, add water, then stir.

Scrambled egg with used tea leaves (SENCHA/FUKAMUSHI-CHA/ GENMAI-CHA) after brewing

CHAMART introduces CHAGUSABA TEA

Circular Agriculture

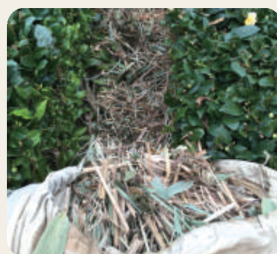

CHAGUSABA farming method in Shizuoka is certified as a Globally Important Agricultural Heritage System by the Food and Agriculture Organization of the United Nations (FAO).

CHAGUSA is grass for tea fields and CHAGUSABA are semi-natural grasslands around the tea fields.

Cutting grasses around the tea field. Placing grass in furrows between tea bushes.

Turning grass into compost to stop soil flow & prevent growth of weeds

Cutting grass exposes small plants and animals to sunlight so they can continue to live.
